

Sing

Sniff 'n' the Tears

I've been cracking diamonds
Wondering who you are
You want a slice of that high price life
And a brand new Rolls Royce car

I've been wasting paper
Trying to crack that code
Says only the good are misunderstood
Are you one of those

And we say
Sing till your heart is breaking
Sing for that raise in pay
Sing till you feel like crying
Sing for another day

I've been riding sideways
Trying to break that pain
Say's the chance to dance with circumstance
May never come again

And we say
Sing till your heart is breaking
Sing for that raise in pay
Sing till you feel like crying
Sing for another day
