

# Steal My Heart

Sniff 'n' the Tears

Step into my tent girl let me hold you tight again  
Lose your blues remove your shoes take shelter from the rain  
We can watch a movie or just talk about old times

Then I'm gonna let you steal my mind  
Then I'm gonna let you steal my time  
Don't make no decisions till you see what you can find  
In my heart - 'cause  
Then I'm gonna let you steal my heart  
Then I'm gonna let you steal my heart  
Steal my heart  
Steal my heart  
Gonna steal my heart

I've memorized those moving tunes to fill you with desire  
Worked out all the things to say to set your heart on fire  
I've even bought your favorite food so that everything's just right

Then I'm gonna let you steal my mind  
Then I'm gonna let you steal my time  
Don't make no decisions till you see what you can find  
In my heart - 'cause  
Then I'm gonna let you steal my heart  
Then I'm gonna let you steal my heart  
Steal my heart  
Steal my heart  
Gonna steal my heart

I'll table my emotions relegate my pride  
Spill the beans by any means to keep you by my side  
I'll play this like Olivier but I just won't be denied

Then I'm gonna let you steal my mind  
Then I'm gonna let you steal my time  
Don't make no decisions till you see what you can find  
In my heart - 'cause  
Then I'm gonna let you steal my heart  
Then I'm gonna let you steal my heart  
Steal my heart  
Steal my heart  
Gonna steal my heart
