

The Game's Up

Sniff 'n' the Tears

There's evil out around the town
People waiting to cut you down
And all the rats are underground
Frowning
So bother not the pain is up
The faithful bought a stillborn pup
And all the rest are giving up hoping

Take a letter - address unknown
Take a letter - all your birds have flown
Take a letter - the truth is out
Take a letter - the game's up

So take the test and stand in line
There's different things to try this time
For those who don't believe in dying
Slowly
So I'll tell you now if you don't know
Things are rising pretty low
But you don't believe this pack of woe surely

Take a letter - address unknown
Take a letter - all your birds have flown
Take a letter - the truth is out
Take a letter - the game's up
