

# EVERYTHING

Snoh Aalegra

See I love how your hands feel  
Stroking my face like that, oh yes  
See I love how, how your lips feel touching my skin  
Don't have to force it, don't have to be nobody else  
'Cause I'm me with you  
You make me forget about all the other shit that I'm going through  
You make me feel how I should feel  
With you I just have it all  
'Cause you are  
'Cause you are

Everything to me  
Everything to me  
You feel like everything I need  
(Like everything now, wow)  
You're my everything now  
You make me fall so deep again now  
When I said I wasn't giving in  
But how could I possibly resist  
When you are everything  
Everything to me

Baby' don't slow down  
'Cause I love how you're taking me places in my mind  
See I love my view from this side  
It's my favorite location  
No one can make the day feel like a couple hours the way you do  
I know forever wouldn't give me enough time to spend with you

'Cause you make me feel how I should feel  
With you I just have it all  
'Cause you are  
'Cause you are

Everything to me  
Everything to me (Yeah, yeah, yeah)  
You feel like everything I need  
(Like everything now, wow)  
You're my everything now  
You make me fall so deep again now  
When I said I wasn't giving in  
But how could I possibly resist  
When you are everything  
Everything to me (Everything)

You are, you are  
(Baby yeah)  
You are, you are everything  
You are, you are everything

When you are everything  
Everything to me
