

Here Now

Snoh Aalegra

Even if we catch the sunrise
It's only a moment passing us by
We still have many more, Southside
Somehow here now, I don't really know quite why
But somehow here now
Oh, you'll be here now

You'll be here now, rise
It's only a moment passing us by
We still have many more, Southside
Here now, here now
Really know, really know quite why
