

INDECISIVE

Snoh Aalegra

Birds fly, and I watch them go into the white sky
To escape the cold and I'm left behind
Yeah, I'm left behind
(Well)

Now the winds blowing under their wings
But they always come back in the spring
When will you come back into my life?
Out of sight but you're not off my mind

(Well, well, well)

See I don't really care
Now I start to sound like you
Tell me why you're here?
I don't get around like you, no

Now you got time, I don't got any
You should've thought about that while you was with me
You just go ahead and be with everybody
You should know by now I ain't just anybody
I don't really care
But I bet you wish I do
(Well, well)
But I bet you wish I would

See I don't really care
Really I'm too good for you
Let me make it clear
Everything is not about you, no

Now you got time, I don't got any
You should've thought about that while you was with me
You just go ahead and be with everybody
You should know by now I ain't just anybody
I don't really care
But I bet you wish I would

Part of me
Wants part of you
Now that's too much, baby
Can't you see? I'm in my mind
But isn't that what you want, baby?
I'm so indecisive but you make me like this
You don't wanna own it (Yuh)
This is just your set up
You want me to let up
You know I can do better
I can do better, oh why
Why, why am I like this? Oh, why?
You know I can do better
