

SAVE YOURSELF

Snoh Aalegra

You may not believe me
I know I didn't tell you
I will always love you
But just know I'm good without you

You may not believe me
I know I didn't tell you
I will always love you
But just know I'm good without you

I hope you find what you're looking for
I hope you find it and way much more
This ain't the first I've been here before
Just go ahead and save yourself

All I ever wanted was everything
Now I gotta unlearn everything
But I let it slide, let it slide
Ahh-ahh

(Judging by the tone of your voice on the phone I knew you wasn't too well)
I know I didn't tell you
I will always love you
But just know I'm good without you
Just go ahead and save yourself

I know I didn't tell you
I will always love you
But just know I'm good without you
Just go ahead and save yourself

I know I didn't tell you
I will always love you
But just know I'm good without you
Just go ahead and save yourself
