

VIOLET SKIES

Snoh Aalegra

My world was all upside down
Wish I knew you'd come around
Wish I knew
If you'd say violet skies were right in front our eyes
I would doubt you

I've always been a worrier
But I'll always be a warrior
Took a little time to find my way
All those time that I was lonely
I was never alone
Through it all I would grow (Yeah)
Wish I would've known

If I could go back in time (Time)
I'll tell you get out your mind (Mind mind)
I'll tell you get out your head
Everything's gonna be alright
Everything that you need will find you
I'm only here to remind you
One day you'll get it right, oh

My world was all upside down
Wish I knew you'd come around
Wish I knew
If you'd say violet skies were right in front our eyes
I would doubt you

I'm doing things to make it work
But quick to get my feelings hurt
Things don't come too easily my way, no, no
And all those times that I was lonely
I was never alone
I should've known, oh yeah

If I could go back in time (If I could go back I)
I'll tell you get out your mind (Get out your mind)
I'll tell you get out your head (Get out your head)
Everything's gonna be alright
Everything that you need will find you
I'm only here to remind you
One day you'll get it right, oh, oh

My world was all upside down
Wish I knew you'd come around
Wish I knew
If you'd say violet skies were right in front our eyes
I would doubt you

My world was all upside down
Wish I knew you'd come around
Wish I knew
If you'd say violet skies were right in front our eyes
I would doubt you
