

WE DON'T HAVE TO TALK ABOUT IT

Snoh Aalegra

You say you really wanna see me
You're only 2 miles away
All I see is FaceTime ringing
Guess you don't got time today
That's okay, that's cool
We don't have to talk about it
No we don't have to talk about it

You say we in it for the long haul
I didn't even get to U-Haul
I didn't even get that far
We didn't even get that far
But we don't have to talk about it
No, we don't have to talk about it
(Hey)

I can't see
I can't see your past
Like the sun in the rain on a cloudy day
But I can feel
I can feel your pain
Was it something I said?
Was is something you said?

We don't have to talk about it, no
Said we don't have to talk about it
(Hey)

It's obvious that you ain't wanna
So you just run away
So how am I suppose to take it?
Guess you ain't got much to say
That's okay, that's cool
We don't have to talk about it
No we don't have to talk about it

You say we in it for the long haul
I didn't even get to U-Haul
I didn't even get that far
We didn't even get that far
But we don't have to talk about it, no
No, we don't have to talk about it
(Hey)

I can't see
I can't see your past
Like the sun in the rain on a cloudy day
But I can feel
I can feel your pain
Was it something I said?
Was it something you said?

We don't have to talk about it, no
Said we don't have to talk about it
(Hey)
