

# You

Snoh Aalegra

I keep it on the low (yeah)  
Until I know  
That's it's you for sure  
Just to be safe  
The people I have told, yeah  
Say, "We can love"  
I've said too much, I've said too much  
To take it back (to take it back)

You, you, you  
I just can't live without you, ooh, ooh, babe  
That shit I speak about, I think about, can't do without  
But I can't live without you, you

I wish I thought before I... I spoke, yeah, yeah  
Made up my mind before I talk  
Everybody close to me, think you are no good to me  
They don't believe us  
'Cause they had to see me, see me that way  
But I only see us, oh yeah  
Yeah, I only see...

You, you, you  
I just can't live without you, ooh, ooh, baby  
That shit I speak about, I think about, can't do without, ooh  
I just can't live without you, no, no, no, no, no, no, ooh

You  
No  
Think about, can't do without  
Can't live without, think without, no  
You (ooh)  
You
