

# Higher Power

Snoop Dogg

Yes, sir  
Death Row Summer  
We 'bout to roll on over to the DMV now  
You better know it  
84faces makin' they debut on Death Row Records  
I told you, this is a summer to remember  
And I know you gonna dig this

Love how you make me feel so good  
God damn, you make me feel so good  
Body of mine feels so good  
I forgot the hour, feels so good  
Love how you make it feel so good  
Damn, how you make me feel so good?  
Body of mine feels so good  
I forgot the hour, feels so good

We are now connected to a higher power  
We are now connected to a higher power  
Drink it in, drink it in, do that again  
Breathe me in, breathe you in, do that again

Sometimes I forget we have names when we layin' there  
Makin' love, no separation of skin, brought me in, destruction  
Promise I'll find your lines between me and water  
My legs shakin', consecratin' our love stronger

Ooh, turn around, do it faster  
Smackin' ass, yeah, do it faster  
Slow down, kiss me, sweet disaster  
Twenty on it I'ma outlast ya  
Ooh, goddamn, when we get it on  
Ain't no breakin' up this connection  
Baby bad, spin and throw me 'round the room  
Climb my lil' ass all over you, I love how we do  
Fuck the pain away like Peaches  
My heart was lonely, but baby, you complete me  
All those times I been through it, the shipwreck on your beaches  
Licui'll be there all weekend  
Loud sex together, neighbors worried 'bout the screamin'  
Only time we break to order chicken wings or streamin'  
Roll a fat blunt, get right back to freakin'  
Laughin', rollin' 'round like we drugged-out, tweakin'

Sometimes I forget my own name when we layin' there  
Makin' love, layin' in the juice is so delicious how they mix up  
My legs shakin', consecratin' our love stronger  
There's nothin' to hold back any longer

Love how you make me feel so good  
God damn, you make me feel so good  
Body of mine feels so good  
I forgot the hour, feels so good  
Love how you make it feel so good  
Damn, how you make me feel so good?  
Body of mine feels so good  
I forgot the hour, feels so good

We are now connected to a higher power  
We are now connected to a higher power  
Drink it in, drink it in, do that again  
Breathe me in, breathe you in, do that again

Know you'll never leave me like melanin that's on my body  
I'll do the time for your love 'cause I trust nobody  
I'm too true to this love, so you know I'm kamikaze  
Sacrifice wealth for my body in your body  
To create a body, this ain't for anybody  
Higher learnin', higher power, I ain't even gotta think about it  
Anytime I look inside your eyes I barely last, so deep without it  
Even think about or weep about it  
Girl, I can't even speak about it  
If I lost your love, I would never cry  
I know you blossomed all the universes  
I would cherish what you left of mine  
Every soft kiss, touch, breath of mine never left my mind  
And if you ever came back, I'd say it's perfect timing  
I miss you, now give me yours and I'll give you mine this time  
And the sun will shine, alright (Alright)  
And lil' shorty said she'd drive (Drive)  
She wanna fuck with me all night (Ni-night)  
I swear I got your soul (Soul-soul)  
I swear you got all mine (Mine-mine)  
And any time we go (Go-go)  
It's more than just a breath in time

Sometimes I forget we have names when we layin' there  
Makin' love, no separation of skin, brought me in, destruction  
Promise I'll find your lines between me and water  
My legs shakin', consecratin' our love stronger

Love how you make me feel so good  
God damn, you make me feel so good  
Body of mine feels so good  
I forgot the hour, feels so good  
Love how you make it feel so good  
Damn, how you make me feel so good?  
Body of mine feels so good  
I forgot the hour, feels so good
