

I Wanna Go Outside

Snoop Dogg

Yes and we're back here at the jack-off hour
187.4 on your FM dial, I am Willie Dynamite and we're getting ready for another quarantine kick-off hour
We got the D-O-double-
G here, yeah that's right, we got Snoop Dogg in the house (Ha-ha)
Speakin' of house, streetlights on, nigga get yo' ass in, and stay there
I wanna go outside, but I'm stuck in the house (In the house)
I wanna take a ride, but I'm sittin' right on the couch (Woah-woah)

You can't tell me this is how we supposed to be livin' (No, no)
I'm just waitin' for the day I can have some fun (Fun)
Too much time on my hands, my whole world is spinnin' (Turn around)
I just want to have a good time in the sun

I'd rather be out there in the streets
In my hood, in the beach, feelin' good
Reppin' that Eastside LBC (That's what I'm talkin' 'bout)
Usually, I would be out there in the club
VIP, bangin' the dub, fresh and clean
Reppin' that Eastside LBC (That's what I'm talkin' 'bout)

I got the rhythm it takes to dance through what we have to live through
(They say don't go outside, it ain't safe to play, baby)
I'm in my house just chillin'
It's my chance to dance my way
I don't have constriction

Movin' in the mirror, while listenin' to some oldies
Cookin' in the kitchen, Madden with the homies
Release a little tension, dinner with the family (I'm in my house just chillin')
And you know it ain't nothin' wrong with spendin' a little quality time, baby (Ooh-ooh)

You can't tell me this is how we supposed to be livin' (No, no)

I wanna take a ride, but I'm sittin' right on the couch (It's better to be safe than sorry)

Yeah, you got that right
Choose my battles wisely, ain't gon fight that fight
All my family and friends, I just want 'em to live
Happy times and good health, old to the young
Times gon' get better, I know it's slow to come
I couldn't hold my tongue (I got a little message for you)
We gon' take our time, ain't no need to rush, we'll be back in the sun

(Whenever we'll be out in the sunshine, ooh-woah)

You can't tell me this is how we supposed to be livin' (No, no)
