

Put You Thru Hell

Snoop Dogg

Is this love or a disaster?
Are we racing to see who can break the other heart faster?
No, you
No, you don't wanna play that game with me
Unless you wanna make it harder on yourself

'Cause I could really put you through hell
Yeah, I could really put you through hell
It ain't gotta be like that, but if you wanna be like that, well
I could really put you through hell

Na, na-na-na

Is this Heaven or a nightmare?
'Cause I swear that this time that your lovin' is beyond compare
But it ain't worth the drama, mm
Yeah, you always on some other shit
Yeah
Why you gotta make me act like this? Oh
You don't gotta make me act like this
(I could really put you through hell)
(I could really put you through hell)
Starting to think you like me better when I'm like this
Don't know why I've been tryin' to fight it

'Cause I could really put you through hell
Yeah, I could really put you through hell
It ain't gotta be like that, but if you wanna be like that, well
I could really put you through hell
