Snoop Dogg

Tell me way you smoking good out of side in the hood  
Pocket's tight you should could put that money on the wood  
Take a flight, take a trip, you just might take a flip  
We just might take a zip, we gonna ask different shit

I'm smoking weed n wax, weed n wax, paper shit  
I'm smoking weed n wax, wax, wax

Baby turn around to the other shit blow smoke  
I would into agresive just blow it enough don't make her show  
Just sit back you daddy, then I'm blind when you look at the miles  
I said yeah you've been a drip, grab a homie young teddy bear  
Your head it's fair, she ask if she can roll another blug  
I'm like I don't care, the way you try this  
No way blood, no weed, no liedest  
A little something I'll be blow and browning  
With a free hand, we still run and pull, I'mma G  
Took a little hit, baby look at me like I'm a bullshit  
But I'm not, come close and show you what I got  
Baby this right here is wax  
Make it down from the crowdy  
Is it better when I smoke your sac  
Hold that, but now just perform it  
Turn that ass round baby touch on it  
While I pull take another pull  
Don't wanna put too much on it  
But when I look at you you're so beautiful  
So after all this dick you get  
You can smoke all this streaky stack  
We'll be on the same vibe and maybe it's no coincidence  
We like your mind take a trip  
Purple kush make it bitch  
We're the wax paper shit

We're the wax paper shit, we'll be right smoking  
Out of side in the hood  
Pocket's tight you should could put that money on the wood
