

## Rip

## Snow Ghosts

You were there to rip apart  
It always ends without a start  
You were there to rip apart  
To rip me apart  
You ripped me apart  
You ripped me apart

You were there to rip apart  
It always ends without a start

You ripped me apart  
All you build will fall apart  
You ripped me apart  
All you build will fall  
You ripped me apart  
All you build will fall  
You ripped me apart  
All you build will fall

You ripped me apart
