

Thrice

Snow Ghosts

One night to end them all, I woke up in pieces, pieces on the floor

Hush now, your secret's safe, hush now

Toss your coins in to the well, once not twice but thrice

I paid the price, I paid the price

One night to end them all, I woke up in pieces, pieces on the floor

Hush now, your secret's safe

I paid the price, I paid the price

One night to end them all, I woke up in pieces, pieces on the floor

Hush now, your secret's safe, hush now

Toss your coins in to the well, once not twice but thrice

I paid the price, I paid the price

Hush now, your secret's safe

I paid the price, I paid the price

Black dog running by my side, keeping time [x3]

This heart of mine

Black dog running by my side, keeping time [x3]

This heart of mine

One night to end them all, I woke up in pieces, pieces on the floor

Hush now, your secret's safe, hush now

One night to end them all, I woke up in pieces, pieces on the floor

Hush now, your secret's safe, hush now

This heart of mine, I paid the price

This heart of mine, I paid the price
