

## If I'd Found The Right Words To Say

Snow Patrol

Right about now, if I'd found the right words to say  
I'd tell you you're safe and take hold of your hand  
I'll be there by your side for the rest of your life  
Our bodies could fall off the end of the world  
Something told me we'd be happy forever  
I don't see how this could change any of that  
I will follow your ghost as it climbs up the rock-face  
And lie with you on the grass above  
And I'd like to change all this  
And I'd like to wake up from this  
By your side  
How did we ever survive for this length of time?  
Living with only a care in the world  
But the light that shines from her  
Whenever she's happy is worth every minute that we've saved our  
selves  
Maybe there's hope in just one final second  
A flash of her love as she waves us goodbye  
Don't torture yourself with what might have given  
We did everything that we could ever do  
And I'd like to chnge all this  
And I'd like to wake up form this  
By your side.
