

# Lurking Inside Of You

Snow White's Poison Bite

Such a stupid dumb shit  
A selfish fuck  
You said you're so sick of my bullshit attitude  
You just didn't have the guts to say it straight to my face  
When you went behind my back you made a big mistake

I know you'll be living your life hating the chase  
You made it  
Now the only thing you have left is regret

There's someone lurking inside of you that someone is me  
I'm haunting you every night and day  
you can't get rid of me  
There's someone lurking inside of you that someone is me  
It's nothing personal but here's what's left of my humility

I'm lurking inside of you  
I'm lurking inside of you

There's someone lurking inside of you that someone is me  
I'm haunting you every night and day  
you can't get rid of me  
There's someone lurking inside of you that someone is me  
It's nothing personal but here's what's left of my humility

There's someone lurking inside of you that someone is me  
I'm haunting you every night and day  
you can't get rid of me  
There's someone lurking inside of you that someone is me  
I'm haunting you every night and day  
you can't get rid of me

I'm lurking inside of you  
I'm lurking inside of you  
I'm lurking inside of you  
I'm lurking inside of you
