

# The Nursery Rhyme

## Snow White's Poison Bite

Hey baby what's happen  
Babe don't say, that it is over it's time to die

Well your golden dress is not as pretty as it needs to be.

You're a suicide beauty all alone and depressed  
Goldilocks goldilocks here's a noose through your neck,  
here's that noose for your neck

She sent me  
Flying kisses off her balcony,  
this scene was and is so romantically

But her desire is all tragedy,  
Oh how we're standing so dramatically (so dramatically)

She sent me.  
Flying kisses off her balcony,  
this scene was and is so romantically

But her desire is all tragedy,  
Oh how we're standing so dramatically (so dramatically)

Oh how we're standing still

It's over now time to die  
Babe don't say this was enough

Romance roses cuts, kills and death

Don't mind my coming by surprise

You're a suicide beauty all alone and depressed,  
Goldilocks goldilocks here's a noose through your neck,  
here's that noose for your NECK

Baby it's time, Baby what's that  
Baby it's time, Baby what's that  
Baby it's time, Baby what's that

For you to die, let's have this in our hearts  
For you to die, let's have this in our hearts

It's over now, It's over now, Baby right now  
It's over now, It's over now, Baby right now

She sent me.  
Flying kisses off her balcony,  
this scene was and is so romantically

But her desire is all tragedy  
Oh how we're standing so dramatically (so dramatically)

She sent me.  
Flying kisses off her balcony,  
this scene was and is so romantically

But her desire is all tragedy  
Oh how we're standing so dramatically (so dramatically)

Oh how we're standing still.
