

# I LOVE DRUGS

## SNOW WIFE

I was dancer  
He played in a band  
They were doing well  
Had plenty of fans

No time to give  
But shit he's sweet  
Like a coat in the winter  
How I like my tea

And we both grew up  
Just a bit too young  
In the devils tower  
Yeah we called it fun  
And we'd pick a flower  
Hold it to the sun  
As we scale the edge  
Grab your hand and jump

Flashback but we were rolling up the backwoods  
Lay back sniffing coke up off the dash board  
Maybach rolling over do me backwards

Pick a fight but he gotta give me head first  
Know I brought the baby bottle in my black purse  
Stay busy quick fucking with the landlord

I do every kinda drug  
Sleep with everyone I love  
Give me someone that I'll be missing a minute

And it's flowing kinda fast  
Show me one that stands the test  
Give me someone that might actually last

I do every kinda drug  
Sleep with everyone I love  
Give me someone that I'll be missing a minute

And it's flowing kinda fast  
Show me one that stands the test  
Give me someone that might actually last

See I was a dancer  
And he chose the band  
We were doing well

Had so many plans  
Gave him all that I had  
'Cause he was sweet  
All the time in the world  
Occupied by me

So before we're old  
I'll call him up  
Get it off chest  
Say it's you that I love

Then he'll say it back  
And I'll feel complete  
Then he'll grab my hand  
We'll be on TV

Flashback you would fuck me 'til my back hurt  
Waist down then you'd wrap it in a T-shirt  
Right there you can go a little slower

Wait nice you can reach into my sundress  
Don't pout know you get a little upset  
And God knows how long you must have waited

I do every kinda drug  
Sleep with everyone I love  
Give me someone that I'll be missing a minute

And it's flowing kinda fast  
Show me one that stands the test  
Give me someone that might actually last

I do every kinda drug  
Sleep with everyone I love  
Give me someone that I'll be missing a minute

And it's flowing kinda fast  
Show me one that stands the test  
Give me someone that might actually last
