

# You Can Do Anything

Snow

Say hello, hello, hello  
Say hello, hello, hello

Wish that I was just a kid  
I'd find some place to play  
The world around us  
Seems to drown us on a slow decay  
I close my eyes  
Imagine floating out to sea  
Not a sound for miles around  
The only man was me

Still there ain't no use  
I'm gettin' it sideways  
It's nothin' at all  
I'm getting' it my way  
Keep imagining cars  
Up in the driveway  
I'm hittin' the highway

How can you knock it  
You're getting' by  
You can do anything  
If you try

The things I did when I was a kid  
I wish would go away  
Be who you are that's who you'll be  
That's what I always say  
My life's an open book  
For all the world to see  
I don't bother you but yet  
You throw your dirt at me
