I'm a diamond in the ruff
Leave hollows in the gun
Leave large holes in your skull
Cause you ain't never coming home
You never fuckin survive
I'm leaving nothin alive
Nobody's gonna escape
Everybody is gonna die
Like the angel of death
Creep up with the 45's
And chrome 9's
Don't love loss and no smile
No mercy no retreat
No surrender coke and heroin
I'm the man on the street
Like a old school metal hero
Ridin dirty mind perverted
Shooting pornos behind the iron curtain
Do more dirty than Talik torture
Fuck peace I'm a violent person
My mind is distorted and fuck the pal at verizon circuits
Uncle howie records there be drugs around me forever
A foundation of terror that rise together
Buck off dimes motherfuck dames together
We fight till the motherfuckin' death and die together La coka

Motherfucker I'm suits
In a bubble goose with timberland boots
They try to hang me with a noose
I whip a tree from it's roots
In k1x hoops with loose
If ya if ya got a general and hidden troops
I got a blender full of forbidden fruits
The force of my flows can fraction 40 bottles
Got a posse of apostles and pussy from super models
I'm a monster with marshpicks powerful as brack bits
Launch you rock kids from clock clips and mack six
The mausberg massive the kill sound clash
Only fuck big chicks with a big round ass
Outlast motherfuckers I'll be taking out trash
Need to get up get out just listen to outkast
Aps flows smack foes jack doe mack hoes

Spitting rhymes making dictators resign like castro
The heavy ammunition is the weapon of choice
Run up on these mothafuckers like "sprechen sie deutsch'"
