

Ride On

Snowgoons

"Uplift your mind"

"Survival got me bugging but I'm alive" - Wu-Tang Clan 'C.R.E.A.M.'

I just touched Berlin, I'm in so soon
Yeah from L.A.X. I connect with Snowgoons
I call C.B. up the Porsche is so blue
When I hunted in the streets screaming "Polizei Fuck you"
Shizer, some are real good but I'm nicer
I'm really from these streets of L.A., a live wire
The cost of living is murdering the future of the children
The music for me, I keep giving
Some brothers get shot every day in L.A
People getting jacked or cracked, takes 'em away
The streets are fucked, some people's luck just runs out
Credit card fraud take all these funds out
I think I need a drink and a blunt to get away
Every time I watch the news, soldiers get blown away
Every time I watch the news more lives get thrown away
Every time every headline "The world's a cold place"

"Tax is flying, people dying somebody tell everything's fine, ride on"

"Days of my life in L.A." - Defari 'Behold My Life'

"I look at the sunset light and blunt and say" - Defari 'Behold My Life'

"Tax is flying, people dying somebody tell everything's fine, ride on"

"Survival got me buggin' but I'm alive"

I got wise then I opened my eyes
And analyze that you telling me embellish me lyrical felonies
And I seldom leave typical melodies, got this gangsta rap wanted
You never murk your nigga then flaunt it
