

# The Beast

Snowgoons

[Verse 1:]

I'll slap? in his face, this is my time and place  
Super fly like chimps in space, gorilla apes  
Smoking an ace, our high grades lower the gates  
Bumrushing the place like I'm owed what I take  
I shed blood and tears for this over the bass  
Now drown in it, that's what happens when the flow is too great  
Those that meet the coldest fate, MCs that you overrate  
I apply the pressure to the boards like I'm overweight  
Even flow, fuck it if I am, the only thing that talks are the duckets in my hand  
And maybe a couple grams of the poison that I choose  
All joy has left the room like the void inside a womb  
On a beat with Snowgoons, that's instrumental death  
Just as simple as the rest but pull tissue from the flesh  
On the mission for the? this is wisdom at it's best  
Just as vicious as the next motherfucker that you sweat

[Hook: scratching]

What I look like? Why you wanna come at me?  
You ain't even in my class  
Trust me, I'm as live as it gets  
You ain't even in my class

Why you wanna come at me?  
You ain't even in my class  
Trust me, I'm as live as it gets  
You better learn

[Verse 2:]

I'm coming for your land, I'm coming for your fucking head, goonology.  
I'll murder Mother Nature and bury her in her own earth  
She semi-suicidal for violating my known turf  
My? pistol? dam dripping you can't fix it  
? henchman on rare visits for square inches  
Man listen I have risen from the ashes  
Disastrous like having your brain cavity smashed in  
This the sound that happens when cities are collapsing  
Or when titans are clashing, we wreak havoc  
There's no method to the madness  
No equation of mathematics, it's just savage  
How can they understand it?  
I want what they inhabiting  
I'll burn it to the motherfucking ground if I can't have it  
Monstrous like a killer with no conscience  
Street smarts and no heart to go along with  
The war on this other carcass with a strong scent  
I'm on this but it gets even worse whenever I'm bent

[Hook:]

What I look like? Why you wanna come at me?  
You ain't even in my class  
Trust me, I'm as live as it gets  
You ain't even in my class

Why you wanna come at me?  
You ain't even in my class

Trust me, I'm as live as it gets  
You better learn
