

## The Hatred 2

Snowgoons

The world on my shoulders is heavy but I'm still holdin' it steady  
My guns are loaded and ready; son, you should know this already  
Hundreds of soldiers are deadly, grudges that no one's forgetting  
Punches of smoldering angel dust in my cold-blooded heaven  
I rip the page out the Bible, roll tobacco leaves up  
I whack a Priest on Easter, now I'm like a crack-up teacher  
I drink poison, piss blood and I hack up ether  
So kiss Medusa, look her in the eyes and smack her keester  
The hatred that drives me, the rage is achin' inside me  
I'm came to break in the windows and rape this vacant society  
Now the building is shakin' cuz there's an ape in the lobby  
Robbing safes in the jewelry scraping and tapin' up bobby  
I ain't makin' no movie, I got an atheist hobby  
How I act like I'm godless, I'm so satan in gothics  
I don't know if you feel me, are you relatin' to all this?  
My love is for the darkness, is hatred you call it  
This is hate. Hate!

I'm a f\*ckin' mad dog like Floyd Banner  
Avoid cannons, my boys destroy whole planets  
I'm blowin' up like an Islamic prayin', bombin' trains  
Rise from my atomic layer, resurrecting Amadeus  
Define challengers, lines of 9 caliber  
In your whole world, my mind's the Mayan calendar  
I blast a rapper like I'm playin' a game of Galaga  
Blowin' up like we the Taliban, my style's infallible  
Spit hellfire, breathe holograms  
And mother-f\*cker, I'm the truth: bring a polygraph  
I paint a picture of misfortune using bloody graphics  
I walk into a funeral and make a sudden racket  
I'm a gladiator, dog; I'm a thoroughbred  
I'll slice your throat and leave you bleedin', drippin' pearl red  
Sick white boys make a lot of f\*ckin' noise, BAXWAR army marchin'  
n' deeper than the Ducky Boys

There is hate  
Wherever we go, wherever we stay  
There is hate  
Whatever the flow, whatever we say  
There is hate  
Whether the hell hole or heavenly base, it's all around us in every  
place, hatred. Hatred
