

Don't Turn Back

Snowy White

I left when the day was dawning
It was colder than ice, but morning
I passed near the mountain where snow was lying
I saw the shadow where you lay crying
But I could not turn back, don't turn back

I came where the sea were angry
Beating the sand in frenzy
Like a reflection of you and me
Reminding me how it used to be
So I did not turn back, don't turn back
I could not turn back, don't turn back

I passed where the lies were endless
Then I saw you ahead, defenceless
My vision faded into night
Now I forget who was wrong or right

But I will not turn back, don't turn back
I could never turn back, don't turn back
Got to go home, don't turn back
Those farther than me too, don't turn back
Never, never turn back, don't turn back
