

For You

Snowy White

For you I would change my life
No more wasting my days
I would mend my ways

For you I'll be good as gold
I'll be all that you need
You can count on me

All my whole life
I've been searching for a girl like you
Now all that I got to do
Is let you know that I'm feeling so strong

For you I would mend my ways
For you I would work all day
For you I'll come home at night
For me you just make it all seem right

For you I would be myself
I'll be all that you need
You can count on me

For you I would mend my ways
For you I would work all day
For you I'll come home at night
For me you just make it all seem right

For you I would mend my ways
For you I would work all day
For you I'll come home at night
For me you just make it all seem right
For me you just make it all seem right
