

# Keep on Flying

**Snowy White**

There's only one good way to live your life  
Follow your heart, know who you are, deep inside  
Get yourself all fired up, be brighter than the sun  
And you must keep on shining

She was young and beautiful, planning to go far  
Found herself in downtown Tokyo dancing in a late-night bar  
Then she got herself all fired up, was brighter than the sun  
And I hope she kept on shining

If you keep reaching for the sky  
One day you will find what you've been searching for  
If you keep on flying high  
The light will surely shine on you  
Keep on trying, keep on flying

He was ready for the road, music all in his head  
He wasn't about to grow up 'cause he could play the guitar instead  
He got himself all fired up, he was brighter than the sun  
And I know he kept on shining

It's a simple truth, nothing is what it seems  
So you got to find yourself something real and follow all your dreams  
Get yourself all fired up, be brighter than the sun  
And I hope you keep on shining

If you keep reaching for the sky  
One day you will find what you've been searching for  
If you keep on flying high  
The sun will surely shine on you  
Keep on trying, keep on flying
