

Something On Me

Snowy White

Sitting here lonely, cold black night
No music in my house and that don't feel right
Big change coming I can see, I can only presume
You've got something on me

You've got something on me
You've got something on me

Sit right here, no desire, ain't gonna move
I'm too close to the wire
The Lord is not my shepherd, that's plain to see
'Cause he must have helped you get something on me

You've got something on me
Yes, I know
You've got something on me

I hear that sneaking coming down the stairs
Gonna ruin my life but I don't care
Someone's been talking, that's plain to see
'Cause that's the only way to get something on me

You've got something on me
You've got something on me
