

Blud

Soak

You've got a problem
I cannot fix it
Hear the anger through the ceiling
I wish I missed it

Quit your employment
We can work without it
If it means you will not suffer

You're in my blud
I'm in your blud
You're in my blud
Oh, let's just forget
Oh, let's just forget

Get up before they shoot you down
This is not worth the risk
The shoutings dampened by the ceiling

Oh, and I am worried for what this is

You're in my blud
I'm in your blud
You're in my blud
Oh, let's just forget
Oh, let's just forget
