

Garden

Soak

Can we go out to your back garden
And lay right down on the ground
Where I can shake like a leaf in your arms
She'll be with your one
I'd take you everywhere if I could
I'd waste all my time on you
I'll gently chair over tobacco
That we got earlier tonight
This cold touches my skin
I teach you every mark
If you let me begin
If you let me in
I would take you everywhere if I could
And I'd waste all my time on you
I'd take you everywhere if I could
I'd waste all my time on you
But I might chill if I ever let you know
You've got too much to lose
