

## Get Set Go Kid

Soak

Get set, go, kid  
There's an entire world to live  
Beyond your middle city apartment  
The words rain and [?]  
Everyone gets a prize  
Even stubborn on the side bench  
Precaution in a step outside

Get set, go, kid

Accept this plastic medal  
Creep back home to hide  
Well done, you did it  
You're alive  
Tears avalanche in search of a sleep  
You survived pesticides  
Searching like nicotine  
Such behaviour romanticised  
Here comes the danger  
This is not the life

Get set, go, kid

Sewn into the sulfur  
You ignore my presence  
Not even your eyes blink  
When I ask you a question

You did it  
You're alive  
You did it  
You're alive  
You did it  
You're alive  
You did it  
You're alive

There's an entire world to live  
Beyond your middle city apartment
