

Holy Show

Soak

I'm still a baby
If you're still waiting outside
I've got your eyes and cheeks in front of me
Filling the space between my thighs

I'll roll you up and crack you open
We look like a couple of teens
Just hanging back and holy ghosting
Apologise and leave

If you remember a thing about it
Tell me that it's not bad
Why'd I even say that?
If you remember a thing that I said
Spare me all the details
Send me on your regales
If you remember a thing about it
Show me on the playback
Why'd I even say that?
I don't remember a thing

I'm sure you hate it
I'd say they can't believe their eyes
Look what this mouth and teeth have gotten me
A bite of someone else's night

Just pulling up and barely knowing
You shouldn't have to repeat
Tonight we'll watch a holy showing
A silent short starring me

If you remember a thing about it
Tell me that it's not bad
Why'd I even say that?
If you remember a thing that I said
Spare me all the details
Send me on your regales
If you remember a thing about it
Show me on the playback
Why'd I even say that?
I don't remember a thing

Oh it's the last time I'll be your sorry sight
You'll have these hollow bites to chew
Oh it's a gas night 'til I've to fortify
Shore up and purify my room

I'm still a baby
If you're still waiting outside
