

## Numb

Soak

Shake it off, I'm numb  
Unsure what I've become  
If you let me go I'll run

In search of a home  
Love lies on the floor  
Broken behind a door

And I know you wonder  
Does everyone you know have to die?  
Well, dear, I don't know why  
No, dear, I don't know why

A car out of fuel  
You, sir, such a fool  
To let everyone you knew out of view

I lie on the floor  
Back to radiator cold  
Listening to Rolling Stones

And I know you wonder  
Does everyone you know have to die?  
Well, dear, I don't know why  
No, dear, I don't know why

And I know you wonder  
Does everyone you know have to die?  
No, dear, I don't know why
