

# They Don't Know

SOB x RBE

You know when you see it and you want it you ain't even gotta ask what it cost (no, no, no, no)

You know when you want it then I got it, ain't no problem when you fuckin' with a boss (just let me know, let me know)

They don't know 'bout you  
And they don't know 'bout me

And they don't know 'bout us

But you know you could call on me (they don't know, they don't know, no, no)  
Just know I, know I

Baby, oh I, oh I

Girl, you know I, know I (don't)

Don't play I, play I

Baby, let a nigga know and I could slide through all night

Oh, oh

Baby, oh I don't lie

Girl you know I go fast then slow down, slow down

Oh, oh, oh

Baby, let a nigga know and I could slide through all night

Blue hunnids in the mattress

A couple plates, a couple Glocks in the cabinet

Still remember days I ain't had shit

Stay down and I might put you in that mansion

I can't stay, no way

On my grind all day

Anything you want, on me

All that shit that you ain't gotta pay

Keep it a hunnid always

And that bitch don't jam, it just spray

If I fell off, would you save me?

Didn't have common sense, would you pay me?

Just know I, know I

I'ma leave that pussy so wet, so wet

I was broke, a nigga had to get his dough right, dough right

A hunnid with my bitch, I tell no lies, no lies

Taking no breaks we be fuckin' all night, all night

In the dark too like there was no lights, no lights

Two phone service, callin' my line, both lines

Last nigga did you wrong but it's alright, alright

These hoes wanna be you

Ain't fuckin' with no lame, baby

Girl I'll fuckin' change, baby

You know when I come through

Wanna hear you scream my name baby, I'ma go insane baby

Always tell you the truth

What I gotta front for? Fuck it throw them cuffs on

All I ever wanted was you

You my everything plus more, one I bust for

I ain't 'bout to play with you

I just wanna do some things to you

Stay with you, lay with you, can I hang with you?

I could put a smile on your face daily

I been trappin' out the whole way, baby

You been workin' all day

I been waitin' to give you this work all day  
Might go down, go rounds  
Empty whole rounds, more rounds  
Til' there's no rounds, no rounds  
Baby, let a nigga know and I could slide through all night

They don't know 'bout you  
And they don't know 'bout me  
And they don't know 'bout us  
But you know you could call on me (they don't know, they don't know, no, no)  
Just know I, know I  
Baby, oh I, oh I  
Girl, you know I, know I (don't)  
Don't play I, play I  
Baby, let a nigga know and I could slide through all night  
Oh, oh  
Baby, oh I don't lie  
Girl you know I go fast then slow down, slow down  
Oh, oh, oh  
Baby, let a nigga know and I could slide through all night
