

## Bloody Honey

## Soccer Mommy

Oh my sweetie  
Did you think my love would leave me?  
So strong that it was palpable  
But feeling can be fallible  
Just look at where it leads me

Oh my baby  
Did you have to call me crazy?  
Just for thinking I was comfortable  
You wanted me to lose control  
Just look at what you've done to me

Because it was you that left me on the line  
And now it's me that has to rob you blind  
And take the light out of your eyes  
But kiss me one last time  
Before we say goodbye

Because I don't wanna play like that  
You know you had your chance to love me back  
And you took your time

Oh my honey  
Don't you find it kind of funny?  
That I put my heart out on the line  
And now it's yours against the knife  
Your blood as sweet as honey

Oh my baby  
Did you have to call me crazy?  
Now it's you whose body's on the ground  
It's you whose chest can barely pound  
Just look at what you've made me

Because it was you that left me on the line  
And now it's me that has to rob you blind  
And take the light out of your eyes  
But kiss me one last time  
Before we say goodbye

Because I don't wanna play like that  
You know you had your chance to love me back  
And you took your time
