

## Last Girl

### Soccer Mommy

I want to be like your last girl  
She's got looks that drive you wild and  
Love the way she wears her makeup  
She would be so nice to wake up to  
She's so sweet  
And she's so pretty  
Even more than me

I want to be like your last girl  
She's the sun in your cold world and  
I am just a dying flower  
I don't hold the summer in my eyes  
She's so cool  
And the boys all drool  
When she leaves with you

Maybe I'm just feeling like  
I don't have a chance this time  
'Cause I don't have a chance this time, I swear

Why would you still want to be with me?  
She's got everything you'll ever need  
Why would you still want to be with me?  
She's got everything

I want to be like your last girl  
She's got looks that hypnotize and  
She could keep you occupied  
I know she still hangs in your mind these days  
She's so fine  
And she's always nice  
Does it drive you wild?

Maybe I'm just feeling like  
I don't have a chance this time  
'Cause I don't have a chance this time, I swear

Why would you still want to be with me?  
She's got everything you'll ever need  
Why would you still want to be with me?  
She's got everything  
Why would you still want to be with me?  
She's got everything
