

Wavering

Soccer Mommy

Everybody wants to have
The kind of love I get to have
With you

Bc no one wants to be alone
Life's much darker on your own
It's true

Everybody wants to feel
The kind of love they know is real
Like I do

Bc I just want you in my life
Kissing circles on my thighs
Like you do

The late night calling
Goodbye stalling
You're the one or me
And I think everyone can see

Everybody wants to have
The kind of love that drives them mad
Like I do

So I don't know just what to say
When I feel you're heart slipping away
Like I do

Late night calling
Goodbye stalling
You're the one for me
And I think everyone can see

The late night calling
I'm still falling
But do you still love me
Bc you're the only one I need
And I think everyone can see
So why are you still wavering
Why are you still wavering?
