## Social Club Misfits

Let's have some fun huh  
Okay, Yeah  
And all I have left are these broken dreams

I heard "I love you" so much I don't know what it means  
I used to be a screw up when I was 16  
Walking through my highschool halls, nobody notice me  
Uh, and now I'm killing it, we killing it  
Social Club, Misfit Gang, the whole team is ridiculous  
Don't try to jump the Bang wagon  
You ain't catching up  
Plus we really love the Lord, that's where the difference is  
So don't confuse me with them other guys  
Just wanna give glory to the one who saved my life  
If you could see the old me it's like day and night  
Not too bad for the suicidal kid, who hates his life  
Yeah! Uh!

Marty Mar, I'm just a misfit  
Trouble maker, by my nature I see things so different  
Friends start to pick it up, and now they acting distant  
Die for my city, Suicidal Kids we livin'  
It's the Social Club, Misfit Gang

(Argh!!) ×8

Since a young age I had mojo with the flow so  
Whenever I spend my focus, it propel me to more than local  
This life we chose to live, this road we walk on, where we livin'  
Is for the taking, why we here?  
So don't be scared 'cause we forgiven  
Social Club, Misfit Gang, Wolf Pack, informally  
Cause we about to eat like we gots??  
It's no problem, lay the track down, I promise  
There are stages in the church down brother, God's honest  
Spoke the torrents to existence as rain was some blessing from  
above  
All love till the day I go  
And yo!  
And this here is just a preview for my next trip  
Lemme see, I don't see  
(I don't)  
See nobody, God is my lone bodyguard  
When the thief robs, just know that the Lord's got me  
(Better know)  
You copy? Fernie He spits ¿¿shaddies??  
Force of a double barrel and hope that you see Gawvi
