## Social Club Misfits

I don't even know how to sing  
Yeah, yeah

Baby, I can fly you to an island  
Only me and you  
Girl, this could be private  
Been workin' all summer, I've been wylin', yeah  
Let's get carried away  
Oh, yeah  
Baby, let me take you to an island  
Only me and you, girl this could be private  
Been workin' all summer, I've been wylin'  
Let's get carried away  
Oh, yeah

You are my favorite person  
I like when you wear my favorite shirt and it smells like perfume  
Let's watch Mr. Deeds  
I'll make you laugh like Peewee Herman  
I'm not so good at flirting  
I said you look like Alien, because my heart is bursting  
You never got the reference  
Why you stayed with me this long?  
I probably shouldn't question  
I should invest in a vest  
Cause if we have a girl, the first boy I see I'll probably kill him! (sorry)  
With you I know I'm winning  
Let's have a couple children  
I remember telling my boys I was in love with you  
I prayed a long, long time the only one was you  
I know that God answers prayers, you are my living proof  
And if we put God first there's no way we can lose

Baby, I can fly you to an island  
Only me and you  
Girl, this could be private  
Been workin' all summer, I've been wylin', yeah  
Let's get carried away  
Oh, yeah

It's either Disney World or Aquatica, baby  
Epcot's and a Legoland is driving you crazy  
You dad's little baby  
Nothing in the world I wouldn't do for you  
Married to your mommy, but I'm so madly in love with you  
Was just me and Marisa then we added Cami  
Then Santino came, that's my bambino, aye  
You know I'm on that FaceTime when I'm on the road  
Let 'em know I'm doing God's work and I'll be coming home  
A good support system, she been since prison  
Kept my phone on and my canteen stay flipping  
I'll spend my whole life 'til we old

Like, "I remember when we first met it was so right"  
Went from the front porch to the first date  
From Mickey D's to the skirt steak  
I pledge to always make time to adore your presence  
You the one I treasure, faithfully your humble servant  
We make marriage look good don't we?  
Till death do us part, let em' know won't we?  
And I'm nothing if you not near me  
I love forever dearly  
And remember I can take you to a...
