Social Club Misfits

Watching Lion King in my pajamas
Cause nothing's changed the misfit gang is still behind us
Yeah they're right behind us, and we on this city
And I thought I was a reject didn't know its in me [?]
In me, I tell the whole world "never took a loss"
We suicidal kids we always took the cross
And I'm dying everyday
I failed a couple of times
But I'm covered by the grace of God, yeah it's something like a hurricane
Every time I don't listen to Him I'm hurt again
And I never try be defined by words of men
The pen of the one who holds my life right in His hands
And I rolled with a bunch of misfits
Have you heard of them? You heard of them
We doing things you talk about
You were born with a plan before you even started out
And God don't make mistakes so watcha talking about?
It's Social Club Misfit Gang you know that we're the hottest out

Aw yeah, somebody give me something to believe in
Cause I just feel alone here without meaning
But then He came around, then He shut it down
Took away my doubts, yeah shut it down
Alright, yeah alright, shut it down
All the fears of my life, yeah shut it down
Alright, yeah alright, shut it down
Aw yeah

Fernie
For the love I spit bars over circumstance
D-Flow on the beat and this track here never late
No limit, no gimmicks, just fire music backed by the unction of God
You know how we do it
Some threw stones, and others gabbed sticks
Trying to throw us off our pivot, don't you know who we with?
This the club, no snub just word play
Based off life and that Sunday school word, eh
Do your research and you find out my father is a pastor
I wound it out on my own, consequences after
I couldn't do it on my own, my father intervened
Shut everything down just to deliver me
Social Club is team going strong independent
No record deal, but oh how our records steal
No excuse, consider this over do
Just two brothers claiming His word which we know is true

Aw yeah, somebody give me something to believe in
Cause I just feel alone here without meaning
But then He came around, then He shut it down
Took away my doubts, yeah shut it down
Alright, yeah alright, shut it down
All the fears of my life, yeah shut it down
Alright, yeah alright, shut it down
Aw yeah
