

## A Cold Road

Social Code

Highs and lows feels like I'm wrecked again  
Valleys downs I need some fun instead  
My television doesn't help for me to settle in  
And this morning ate my glory  
But I'm still making it  
In two weeks my low will start to bend  
A giant slumber  
I'll be older then  
It's far too long to walk alone  
Yeah I'm glad I've got my friends  
And this morning ate my glory  
But I'm still making it  
The road is cold from what I hear  
And I'm not changing it  
And this morning ate my glory  
But I'm still making it  
The road is cold from what I hear  
And I'm not changing it  
And this morning ate my glory  
But I'm still making it  
Cause I'm not changing it  
Cause I'm not changing it  
Cause I'm not changing it  
Cause I'm not changing it  
So Hold on  
So Hold on  
So Hold on  
So Hold on
