Nothing Left To Lose

Social Code

I'm rolling like a freight train
I'm coming off the tracks
I'm not stopping for anything
So try and catch me if you can

I've been spinning around in this crazy head
And getting nowhere fast

I've got nothing
I've got nothing left to lose

You're a sentimental hurricane
In love with your old ideas
I've been standing in your pouring rain
I haven't been dry in years

I've been spinning around in this crazy head
And getting nowhere fast

I've got nothing
I've got nothing left to lose

Finally got my feet on the road
Heading no direction but the signs say go
Anywhere will do
Anywhere away from you

I've got nothing
I've got nothing left to lose (2x)

(Air guitar!)
[Guitar solo]

I've got nothing
I've got nothing left to lose (4x)

(I've got nothing left to lose)
