Social Code

Now's not the time for talking
Give me what i want or im walking
I just wanna hear some rock 'n' roll

I like it stripped down raw and naked
A little piece of your haert i'll take it
Turn it as loud as it will go

I don't want it packaged neat
I don't want it bought and sold
Don't play it safe it's time to lose control

[Chorus]
I'm gona kill my television
And burn my radio
just want something that will move my soul
I want rock 'n' roll

Let's set these city streets on fire
Strike the match and start a riot
Burn it to the ground with a rock 'n' roll

The battle stopped my ears still ringing
I miss the sound of the sirens singing
The atttoo on my heart says rock 'n' roll

I don't want it packaged neat
I don't want it bought and sold
Don't play it safe it's time to lose control

[Chorus]X2
