

# Rock 'N' Roll

## Social Code

Now is not the time for talking,  
Give me what I want, or I am walking  
I just want to hear some rock 'n' roll.

I like it stripped down raw and naked,  
A little piece of your heart I'll take it,  
Turn it up as loud as it will go

I don't want it pact it's need,  
I don't want it, but it's soul  
Don't play it safe it's time to lose control

I'm gonna kill my television  
And burn my radio  
I just want something that will move my soul  
I wan't rock 'n' roll

Set these city streets on fire  
Strike a match and start a riot  
Burn it to the ground with rock 'n' roll

The battle stops, my ears still ringing  
I miss the sound of the sirens singin  
The tatto on my heart says rock 'n' roll

I don't want it pact it's need,  
I don't want it, but it's soul  
Don't play it safe it's time to lose control

I'm gonna kill my television  
And burn my radio  
I just want something that will move my soul  
I'm gonna kill my television  
And burn my radio  
I just want something that will move my soul  
I wan't rock 'n' roll

Where did you go?  
Where did you go?  
Ooohh...

I'm gonna kill my television  
And burn my radio  
I just want something that will move my soul  
I'm gonna kill my television  
And burn my radio  
I just want something that will move my soul  
I wan't rock 'n' roll  
Rock 'n' roll (3x)
