I Was Wrong

Social Distortion

```
Eb                                      B
When I was young I was so full of fear
     F                          Ab
I hid behind anger and held back the tears

             Eb                     B
It was me against the world and I was sure that I'd win
               F                    Ab
But the world fought back punished me for my sins
     Eb            B
I felt so alone so insecure

   F                              Ab
I blamed me instead and made sure I was heard
                 Eb                     Eb
And they tried to warn me of my evil ways
         F                      Ab
But I couldn't hear what they had to say

        Eb    B F            Ab
I was wrong self destruction got me again
         Eb B   F                   Ab
I was wrong I realise now that I was wrong

        Eb                     B
And I think about my loves well I've had a few
        F                        Ab
I'm sorry that I hurt them, did I hurt you too?
   Eb                   B
I took what I wanted put my heart on the shelf
F                               Ab
How can you love when you don't love yourself
        Eb                  B
It was me against the world I was sure that I'd win
              F                     Ab
But the world fought back punished me for my sins
                Eb                      B
And they tried to warn me of my evil ways
         F                      Ab
But I couldn't hear what they had to say

        Eb    B F          Ab
I was wrong self destruction got me again
         Eb B   F                     Ab
I was wrong I realise now that I was wrong
         Eb  B     F   Ab
I was wrong
         Eb  B    F   Ab
I was wrong

            B          F
Well I grew up fast I grew up hard
Ab                           B
Something was wrong from the very start
         B                   F
I was fighting everybody I was fighting everything
           Ab                    B
```

```
But the only one that I hurt was me
         B                      F
I got society's blood running down my face

Ab                            B
Somebody help me get out of this place
          B               F
How could someone's bad luck last so long
     Ab                   B
Until I realised that I was wrong

         Eb    B F                   Ab
I was wrong self destruction got me again
         Eb    B    F                      Ab
I was wrong I realise now that I was wrong
         Eb    B F                      Ab
I was wrong self destruction got me again
         Eb    B      F                    Ab
I was wrong the only one that I hurt was me
Eb
I was wrong.
```
