

I Wasn't Born To Follow

Social Distortion

When I grow up, gonna be a star
Gonna sing my songs and play my guitar, im ready
gonna change the world, gonna turn the page
gonna say what i feel, let out this rage, get ready
we're going down, down to the streets below

gonna sing the songs of the streets again
gonna knock me off my feet so get ready
I'll sing a song for the fallen angels
This one goes to all the unsung heroes

We're Going Down, Down to the streets below
'cause don't you know, I wasn't born to follow

I realize that in your eyes you got ideas
but i got mine, get ready
here comes the new generation
hope they feel and fight the same way as we did

When I grow up, gonna be a star
gonna sing my songs and play my guitar, im ready
Gonna change the world, gonna turn the page
Gonna say what I feel, let out this rage, get ready
we're going down, down to the streets below
I said "goodbye to the masses, I wan't born to follow"
