

Sabotage

Social House

I hope that he falls in a pit and can't crawl out of it
With nobody around and no cellphone service
And you're forced to move on with somebody toxic
Or someone who's not really into letting you in

'Cause you know what they say when you're facing heartbreak
Hurt people hurt people, nothing's changed
He's so in the way, feel him taking my place, whoa

Make me wanna sabotage you
When I see you're happy and you moving on
I wanna sabotage you
I can't help that you're the only one I want
And you know it, and I can't control it
But you got him standing in my way
Make me wanna sabotage you

I hope you find the love that you needed
Then you think about what we did
Then you get to fucking me when I see you
I hope that he find out and that nigga leave you

'Cause you know what they say when you're facing heartbreak
Hurt people hurt people, nothing's changed
He's so in the way, feel him taking my place, whoa

Make me wanna sabotage you
When I see you're happy and you moving on
I wanna sabotage you (Yeah, yeah)
I can't help that you're the only one I want
And you know it, and I can't control it
But you got him standing in my way
Make me wanna sabotage you

Make me wanna sabotage you
When I see you're happy and you moving on
I wanna sabotage you
I can't help that you're the only one I want
And you know it, and I can't control it
But you got him standing in my way (Yeah, yeah)
Make me wanna sabotage you
