

Just Let Me Go

Social Repose

It hurts my heart to see
You had to show the time to me
You put the gun between your lips
I know you're better than this

You are the girl I never knew
At least I know that that is true
And I never moved on
But without me, you'd be gone

So please
Just let me go...
Please
Just let me go...
Please...

Please just let me go!
Fuck!

Let go!

Hey!

Please just let me go!

Do you believe in god?
I find that pretty odd
The way you stare into the air
Just like there's nothing there

So please
Just let me go...

Please just let me go!
Fuck!

Let go!

Go!

Please just let me go!
