

## Blood on Your Lips

Sodom

Stalking down the enemy, these haunting memories  
The evil men are killing blindly, erased of human waste  
It's frozen in their face; traumatic minds enslaved  
Screams that never reached my ears until the death redeems

Ambivalence! Lost salvation!  
Lunatic fringe! Incarceration!  
Freedom's slave, subliminal deceit

Blood, blood on your lips  
Measure my faith, come on to die with me  
Blood, blood on your lips  
You're falling down into a pitiless sleep

My systematic procedure within my concious mind  
Can\'t wash away the crimson stains; no tears that save my eyes  
Passion for the flesh, I know that never dies  
The devils that surround me never asking why

Imagination! Victimized!  
Obliteration! Justified!  
All I see: the multitudes of death

Blood, blood on your lips  
Measure my faith, come on to die with me  
Blood, blood on your lips  
You're falling down into a pitiless sleep

Blood!!! - Die with me  
Blood!!! - On your lips

I am the chosen one, your dad and your lovely mum  
I\'ll offer my secrets for you: my physical lust  
This is for me and you searching to find the truth  
No reason for you to cry, we\'ll find the paradise

Blood on your lips

Ambivalence! Lost salvation!  
Lunatic fringe! Incarceration!  
Freedom's slave, subliminal deceit

Blood, blood on your lips  
Measure my faith, come on to die with me  
Blood, blood on your lips  
You're falling down into a pitiless sleep

Blood!!! - On your lips  
Blood!!! - Die with me
